

## **Aerotel Medical Systems to Showcase Personal ECG Monitoring Devices at Medica 2012**

*Aerotel will present the personal hand-held, easy-to-operate ECG monitors and other personal telemedicine solutions in Hall 9, Stand C01 at the Medica trade fair, in Dusseldorf, Germany.*

Dusseldorf, Germany, November 6, 2012 – [Aerotel Medical Systems](#), a leading global supplier of advanced remote monitoring solutions for telehealth and telecare, will present innovative personal telemedicine solutions at [Medica 2012](#), in Dusseldorf, Germany.

Aerotel will present at the world's largest medical trade fair, its highly successful HeartView™, a personal hand-held 12-lead ECG monitor with Bluetooth connectivity. The easy-to-operate personal ECG device puts patients in control and provides physicians with a clear, comprehensive ECG recording.

HeartView™ and other innovative products will be presented by Aerotel in Hall 9, Stand C01 at the Medica trade fair, which will take place from November 14–17, 2012.

“Medica 2012 will provide Aerotel with an excellent opportunity to present our cutting edge personal remote monitoring devices to the professional global health care community,” said David Rubin, Aerotel Medical Systems president and CEO. “Aerotel's solutions offer various diagnostic, emergency and monitoring service applications leading to critical time savings, enhanced level of emergency treatment and higher recovery rates from critical situations.”

Aerotel will also use the four-day event to demonstrate its Mobile-CliniQ™, a mobile phone application that enables remote monitoring of various health parameters, such as electrocardiogram (ECG), blood pressure, blood glucose level, weight, etc.

In addition, Aerotel will present its [GeoSkeeper™](#) personal wireless GPS location and tracking device. GeoSkeeper offers a new level of safety beyond existing PERS (Personal Emergency Response System) and traditional social alarm systems.

During the past 15 years, Aerotel gained a leading position worldwide as a developer of telemedicine and telecare devices aimed at improving patient's quality of life. Aerotel's medical devices are used on a daily basis supporting millions of people in more than fifty countries around the globe.
