

Aerotel Medical Systems to Introduce its New Q Systems at MEDICA 2006 Show

With this New Remote Monitoring Concept for Company's HRS & MPM Systems, Aerotel will show the global health care community how effective remote monitoring can truly be.

Holon, Israel, October 30, 2006 -- Aerotel Medical Systems, one of the world's leading manufacturers of advanced transtelephonic telemedicine systems, will be unveiling its new, cutting-edge Q concept at MEDICA 2006 show, in Dusseldorf, Germany. With Q, Aerotel will show the global health care community how effective remote monitoring can truly be.

"By integrating new, cutting-edge technologies into our systems we are expanding the capabilities of telemedicine," explains David Rubin, Aerotel CEO. "Our new Q concept makes possible seamless, wireless connectivity and instant accessibility to diagnostics. The end result is cost-effective, on-going medical observation 24 hours a day at minimum cost."

Aerotel's novel Q concept consists of two lines: CliniQ and AutomatiQ. CliniQ has been designed for Aerotel's MPM (Medical Parameter Monitoring) system and features Mobile-CliniQ and Home-CliniQ – two new compatible products for Bluetooth enabled devices, as well as its multi-parameter acquisition centers, Medi-CliniQ and Tele-CliniQ. AutomatiQ has been developed for Aerotel's Heartline Receiving Station. It features a new, automatic Voice Receiving Module (VRM) and a new automatic HRS Remote Receiver (HRR).

For more information about Aerotel's new Q systems, visit Aerotel at MEDICA 2006, November 15-18, Messe Dusseldorf Germany, Booth Hall 9 D-11.

About Aerotel Medical Systems

Aerotel Medical Systems is a world leader in cost-effective, high quality, user-friendly, medical diagnostic systems and devices for the home care, eHealth and Telemedicine markets. The company provides a complete disease management package, including transtelephonic devices designed for a variety of remote diagnostic, emergency services and monitoring applications; a hardware and software platform; plus phone and web-based software.

Aerotel enables patients to conduct tests comfortably while leading normal, mobile lives. Today, Aerotel's presence is felt around the globe, with an international network spanning India, China, Australia, the United States, Europe, Israel and South America.

Aerotel is a CE Mark 473/ISO 9000:2000 certified company and FDA approved enterprise. It is also the 2006 recipient of the Frost & Sullivan Award for 'Company of the Year' in the European patient monitoring market.
